Summary

Final-year B.Tech Computer Science student with a solid foundation in Java and an eagerness to learn web development. Passionate about building web applications, solving complex problems, and continuously improving my skills as a developer. Always eager to contribute to innovative projects and grow in the field of software development.

Education

Walchand Institute Of Technology , Solapur   Nov 2022 – June 2026
  * B.Tech in Computer Science and Engineering CGPA : 8.92

Skills

Programming Languages: Java, Python, JavaScript, C, SQL

Frameworks & Libraries: HTML, CSS, React.js, Node.js

Development Tools: VS Code, Git, GitHub NetBeans, Jupyter Notebook

CS Fundamentals: DSA, Computer Networks, Operating Systems, Database Management Systems

Projects

Wanderlust – Travel Listing Platform | Link (In Developing Stage)
  * Currently developing a full-stack travel listing platform using Node.js, Express.js, MongoDB, and EJS, with features like user authentication, interactive maps, reviews, and cloud integration still in progress.

E-Commerce Web Platform for Textile Orders
  * Designed and developed a digital platform for online textile ordering with separate user and admin panels.
  * Admin Panel: Manages customer orders, reviews sales analytics, and approves custom product requests.
  * User Panel: Allows browsing products, placing orders, and submitting custom towel design requests.

Expense Tracker
  * Built a Java-based expense tracker application that records and stores data such as date and time, and displays total monthly expenses in a clear format.

Certifications

  * Python Technology Stack – Certified by Infosys Springboard
  * Machine Learning Basics – Certified by Infosys Springboard
  * Java Programming – Udemy course by Prof. Abdul Bari

Achievements

  * Secured 1st rank in Film Making Competition in WitChar 2024.
